

SWANSON FLO

Swanson Flo provides **innovative process control solutions** to the upstream and midstream oil & gas pipeline industry through quality equipment and experienced application engineering with an unrelenting desire to create proactive customer relationships.

Valves & Instrumentation

Multi-turn and quarter-turn electric actuators for valves and dampers, pneumatic scotch-yoke valve actuators.

Dual-seal trunnion mounted ball valves for pipeline, petrochemical, and process industries. Designed as an alternative to through-conduit gate valves.

Slab and expanding through-conduit gate valves, axial surge and rotary control valves, piston, ball, and swing check valves.

Liquid level gages and valves, steam gages, capacitance columns and switches, magnetic gages, armored tubular and sight flow indicators.

Class 150-2500 API-6D gate and ball valves.

Monitoring and communications for discrete valves. Hazardous location wiring and fieldbus solutions.

Process instrumentation for measurement of flow, pressure, temperature, level and analytical properties.

Coriolis mass, differential pressure, magnetic, positive displacement, turbine, ultrasonic and vortex flow meters.

SCADAPack hardware and software solutions, Trio radios, ClearSCADA host software, Accutech (Foxboro) wireless instruments.

API-6D double block and bleed plug valves, ANSI 150 - 600.

API-6D double block and bleed plug valves, ANSI 150- 1500.

Multifunction calibrators, HART communicators, instrument asset management.

Solenoid valves for process automation.

Multi-brand factory trained control valve repair center

Swanson Flo Performance supports every process control customer with region-based, full-capability service and repair. Our factory-certified technicians provide you with a complete overhaul and repair of the control valves, actuators, and instrumentation. Equipment is fully disassembled, inspected, cleaned, reassembled, calibrated, and tested to meet factory original standards. Swanson Flo Performance utilizes only factory OEM parts to repair your equipment.

Factory certified technicians, repair and parts for:

Foxboro
by Schneider Electric

SwansonFlo is the only FM approved Limitorque repair facility in the upper-midwest. We also repair equipment from other manufacturers.

Precision, Performance, Perfection

- COMMISSIONING** - To ensure that equipment performs to expected specifications
- MECHANICAL INSPECTION** - Detailed reports on the mechanical health of your valves
- VALVE REPAIR** - Returning your valves to "like new" condition
- ONSITE REPAIR** - Bringing resources and equipment to you
- OEM PARTS** - Certified original manufactured parts maintaining highest standards
- RE-INSTRUMENTATION** - Upgrading performance and equipment to meet ever-changing needs
- SITE SURVEYS** - Gathering plant data for asset management
- TRAINING** - Hands-on technical and practical training for you
